Introductory Message

This Self-Learning Module (SLM) is prepared so that you, our dear learners, can continue your studies and learn while at home. Activities, questions, directions, exercises, and discussions are carefully stated for you to understand each lesson.

Each SLM is composed of different parts. Each part shall guide you step-by-step as you discover and understand the lesson prepared for you.

Pre-tests are provided to measure your prior knowledge on lessons in each SLM. This will tell you if you need to proceed on completing this module or if you need to ask your facilitator or your teacher's assistance for better understanding of the lesson. At the end of each module, you need to answer the post-test to self-check your learning. Answer keys are provided for each activity and test. We trust that you will be honest in using these.

In addition to the material in the main text, Notes to the Teacher are also provided to our facilitators and parents for strategies and reminders on how they can best help you on your home-based learning.

Please use this module with care. Do not put unnecessary marks on any part of this SLM. Use a separate sheet of paper in answering the exercises and tests. And read the instructions carefully before performing each task.

If you have any questions in using this SLM or any difficulty in answering the tasks in this module, do not hesitate to consult your teacher or facilitator.

Thank you.

What I Need to Know

This module was designed and written with you in mind. It is here to help you master Word Analogies. The scope of this module permits it to be used in many different learning situations. The language used recognizes the diverse vocabulary level of students. The lessons are arranged to follow the standard sequence of the course. But the order in which you read them can be changed to correspond with the textbook you are now using.

The module is divided into two lessons, namely:

- Lesson 1 – Features of Word Analogies
- Lesson 2 – Types of Analogies

Most Essential Learning Competency

Use analogy to describe or make a point.
Analyze relationships presented in analogies.

After going through this module, you are expected to:

Lesson 1

1. identify the relationship between the words and
2. use analogy to describe association of words.

Lesson 2

3. recognize the types of analogies;
4. create analogies based on the identified relationships and
5. use analogy to make a point.

What I Know

To test your knowledge about relationship of words, answer the exercises below. Write your answer on a separate sheet of paper.

Choose the word that best completes each analogy.

1. Bear: den :: Bat: _____ (hive, nest, cave)
2. Doctor: stethoscope :: carpenter: _____ (rake , hammer, shovel)
3. Hot: cold :: Sweet: _____ (bitter, salty, sour)
4. Large: big :: shout : _____ (cry, scream, whisper)
5. Hand: gloves :: foot: _____ (socks, shoes, slippers)

Inside the parenthesis are options to choose from, select the best word to complete each analogy.

1. fish: 2. _____ :: bird: nest (den , aquarium, cave) _____
3. _____ : horse :: board: train (mount, ride, jump)
4. lion: carnivore :: rhino: _____ (carnivore, herbivore, omnivore)
5. piercing: _____ :: hushed: whisper (watch, siren, ears) (repair, manuscript, makeshift)
6. mend: sewing :: edit: _____
7. pilot: _____ : engineer: site (theater, cockpit, shipyard)
8. fabric: _____
9. cytology: _____ :: shoes: leather (yarn, paper, jute)
:: geology: rocks (cyclones, psychology, cells)
10. doze: sleep :: tiptoe: _____ (flat, swim, walk)

Lesson 1

Word Analogies

Successful communication or 'saying what you mean' is dependent upon a good vocabulary foundation. Using the right words makes you a more effective communicator. Having a rich vocabulary can help you write effectively. In the same manner, analogies help in conveying and understanding messages.

As you go through this lesson, you will learn the importance of knowing the relationship of words. Your critical thinking skills will be developed while doing the activities

What's In

Study the given words and group them according to their similarities or differences. Write your answer on a separate sheet of paper.

| | | | | | |
|--------|------|-----|-----|-------|--------|
| Author | Gift | Dig | Joy | Write | Shovel |
|--------|------|-----|-----|-------|--------|

How did you come up with your answers?

Teacher

Notes to the

You may add more words & process their answers by letting them think and analyze the relationship of the given words.

What's New

In the box below are pairs of words. Read and analyze the relationship between each pair of words. How are they related? How are they formed? Use analogy to describe your point.

Example: **New: Old** – To analyze the relationship, identify and figure out how the pair of words are related. **New** is the opposite of **old**, so these two words are **opposites**.

| |
|----------------------|
| Fish:Sea |
| Tears:Sadness |
| Carpenter: Hammer |
| Delicious:Delectable |
| Kind:Cruel |

What is It

In the first quarter, you had already learned the basic ways on how to analyze the relationship of words and that the term that means “word relationships” is called Analogy.

Basically, analogies are indicated by a colon between the words that form a relationship, with a double colon between the two relationships being compared.

Take a look at this example, minute:hour:: gram:kilo . It is read this way: minute is to hour as gram is to kilo.

Essentially, analogies are comparisons between two things which emphasize the similarities between those things, inferring that one is similar to the other based on common characteristics.

These are comparisons that help us depict the connections between words. We can use these connections to figure out the meanings of unfamiliar words.

What's More

After having performed series of activities, apply your understanding of the lesson by performing the task below.

A. Circle the word that best completes each analogy.

Hairdresser is to client as doctor is to **patient/medicine/customer.**

Courage is to adventure as fear is to **risk/excitement/good luck.**

Land is to soil as ocean is to **rich/finger/water.**

Perplex is to confuse as to irritate is to **happy/annoy/mad.**

Desert is to sun as green pasture is to **cats/fish/sheep.**

Astronomer is to telescope as barber is to **saw/scissors/pen.**

Lion is to lioness as stallion is to **mare/drone/swan.**

Blow is to blew as find is to **forgot/froze/found.**

What I Have Learned

Now that you have learned the basic features of analogy, choose the sentence that makes sense. Write your answer on a separate sheet of paper.

Example:

- A. Something that is huge is very big.
- B. Something that is good is very bad.
- C. Something that is new is very sweet.

B and **C** don't make sense! But hey! **A** makes sense!

___1) a. A characteristic of a pillow is to be hard.

b. A characteristic of snow is to be white.

c. A characteristic of the sky is to be fast.

___2) a. Something that is terrible is very bad.

b. Something that is new is very old.

c. Something that is bright is very dark.

___3) a. Tall is the opposite of short.

b. Hot is the opposite of warm.

c. Blue is the opposite of yellow.

___4) a. Someone who is brilliant is very smart.

b. Someone who is funny is very mean.

c. Someone who is nice is very clean.

___5) a. Milk is part of cereal.

b. Bread is part of a sandwich.

c. Meat is part of a cake.

What I Can Do

Since you have already understood the definition of the term analogy and learned its features, think and list down ten (10) word analogies related to your life and explain the relationship by describing them. Write your answer on a separate sheet of paper.

| | |

Cold is the opposite of hot, wet is the opposite of dry.</p> <p>The two pairs of words shows <u>opposite relationship</u></p> |
